Works

# Projects

## E-Commerce Website

Developed a fully functional e-commerce platform using HTML, CSS, JavaScript, and PHP. Implemented features like user authentication, product catalogs, and a secure payment gateway.

## Personal Expense Tracker

Created a mobile-responsive web app using React.js and Firebase to help users track daily expenses. Integrated real-time data synchronization and data visualization with charts.

## Chat Application

Built a real-time chat application using Node.js, Express, and Socket.IO. Designed an intuitive user interface and implemented private messaging and group chat features.

## Weather Dashboard

Developed a weather forecasting app using Python and Flask, with data fetched from the OpenWeather API. The app displays current conditions and a 5-day forecast with a user-friendly interface.

Hobby

# Things i like to do

When I'm not immersed in coding, I love spending time on activities that help me express my creativity and help me relax.

## Listening to Music

I enjoy exploring various genres, from soothing classical tunes to energetic modern beats. Music inspires me and helps me unwind after a productive day.

## Cooking

I find joy in experimenting with ingredients to create delicious and unique recipes. Cooking is both a creative outlet and a way to share happiness with others.

Adventure

# Adventure

I've been fortunate to have had opportunities to visit remarkable places, each offering unique experiences and unforgettable memories, such as exploring the vast landscapes of Bale Mountains and experiencing the historical wonders of Lalibela.

## Exploring Bale Mountains

Embarked on a thrilling journey through the Bale Mountains, immersing myself in breathtaking landscapes and unique wildlife.

## Discovering Lalibela

Experienced the awe-inspiring rock-hewn churches of Lalibela, delving into their rich history and cultural significance.
